PROFESSIONAL PROFILE

Network, infrastructure and security engineer with experience supporting enterprise and government IT environments across networking, firewalls, VPNs, Windows Server, wireless, virtualization and cloud connectivity. Experienced in technical troubleshooting, vendor coordination, infrastructure maintenance, documentation, and support for ISO 20000 and ISO 27001 requirements.

TECHNICAL CAPABILITIES

NETWORKING	Cisco routing/switching, Layer 2/3, VLANs, trunking, STP, port security, OSPF, EIGRP, BGP, RIP, static routing, high availability, SD-WAN/SDN.
SECURITY & VPN	FortiGate, FortiAnalyzer, firewall policies, IPS, IPsec site-to-site VPN, SSL VPN, Palo Alto, Cisco ASA.
AZURE & HYBRID	Azure VNets, subnets, NSGs, route tables, UDRs, VNet peering, VPN Gateway, hybrid connectivity, Azure Monitor, Network Watcher.
SYSTEMS	Windows Server 2022/2025, Active Directory, DNS, DHCP, Group Policy, file services, Hyper-V, VMware, Azure Virtual Machines.
WIRELESS & VOICE	Aruba Central, Aruba APs, ClearPass Policy Manager, Cisco wireless, Avaya IP telephony, Cisco CUCM.
OPERATIONS	PRTG, SolarWinds, OpManager, CCTV/IP cameras/NVRs, asset inventories, network diagrams, AMC/SLA follow-up, vendor coordination.

SELECTED PROJECT AREAS

Enterprise Network Infrastructure

Cisco routing and switching, VLANs, troubleshooting, infrastructure upgrades, network diagrams and asset records.

Firewall, VPN & Security Operations

FortiGate policies, IPS, firmware upgrades, IPsec/SSL VPN and FortiAnalyzer security-log monitoring.

Azure Hybrid Networking

VNets, subnets, NSGs, route tables, UDRs, peering, VPN Gateway and on-premises connectivity.

Wireless & Infrastructure Operations

Aruba Central/APs, ClearPass, server-room infrastructure, Avaya telephony and CCTV components.

Project areas are based on CV-listed technologies and responsibilities; no confidential client details are included.

PROFESSIONAL EXPERIENCE

Network Security Engineer & System Administrator | 15 Jan 2020 – Present

Ajman Government – Department of Economic Development | Ajman, UAE (Outsourced)

- Manage Cisco enterprise networking, VLANs and routing/switching troubleshooting.
- Administer FortiGate firewalls, IPS, VPN access, firmware upgrades and FortiAnalyzer monitoring.
- Support Azure networking and hybrid connectivity, Windows Server, Active Directory, DNS/DHCP and Hyper-V.
- Support Aruba wireless/ClearPass, Avaya telephony and CCTV network components.
- Maintain documentation and inventories; coordinate upgrades, AMCs, preventive maintenance, vendors and SLA follow-up; support ISO 20000/27001 requirements.

IT Field Support & Network Engineer | 06 Oct 2018 – 08 Dec 2019

EPG – Emirates Post Group | Dubai, UAE (Outsourced)

- Provided onsite and remote support across multiple branch offices for endpoints, Windows, user access and applications.
- Troubleshot Cisco LAN/WAN, routing, switching, dedicated circuits, firewalls and VPN connectivity.
- Supported Windows Server, Hyper-V, patching, asset records and infrastructure upgrades.

Team Lead – IT Support & Network Support Engineering | 16 Sep 2013 – 30 Apr 2018

Ajman Government – Municipality and Planning Department | Ajman, UAE (Outsourced)
